DOCUMENT RESUME

ED 321 930 RC 017 633

AUTHOR	Nguyen, Thuha; And Others
TITLE	A Summary of Participation and Achievement Information as Reported by State Migrant Education Programs for Fiscal Year 1985. Volume 1: Participation.
INSTITUTION	Decision Resources Corp., Washington, DC.
SPONS AGENCY	Department of Education, Washington, DC. Office of Planning, Budget, and Evaluation.
PUB DATE	Apr 87
CONTRACT	300-85-103
NOTE	104p.; For Volume 2: Achievement, see RC 017 634.
PUB TYPE	Reports - Descriptive (141) -- Statistical Data (110)
EDRS PRICE	MF01/PC05 Plus Postage.
DESCRIPTORS	Elementary Secondary Education; *Enrollment; Migrant Children; *Migrant Education; *Migrant Programs; Migrant Youth; Program Descriptions; School Statistics; Staff Utilization; State Programs; Student Characteristics; *Student Participation; Summer Programs; Teacher Student Ratio
IDENTIFIERS	*Education Consolidation Improvement Act Chapter 1; Migrant Education Program

ABSTRACT

This is the first of two volumes of a report summarizing participation and achievement information from the 1984-85 school year of the Education Consolidation and Improvement Act (ECIA) Chapter 1 Migrant Education Program. This volume presents participation information provided by state educational agencies. This school year was the first for which such data were gathered. The document contains the warning that inconsistency, incompatibility, and inadequacy among the state data contributed to an incomplete description of migrant participation. States with more than 10,000 participants included California, Texas, Florida, and Arizona. States with fewer than 100 participants included New Hampshire, West Virginia, Rhode Island, and South Dakota. The proportion of male to female students was roughly the same. Sixty-nine percent of the participants were Hispanic, 13% were White, and 6% were Black. Fifty-two percent of the participants were settled-out migratory youths (formerly migrant), 30% were interstate migratory youths, and 18% were intrastate migrants. Most of the participants were in grades K-6. Reading and mathematics instruction were received by the largest percentage of participants. In the regular term, 32% of the students also received attendance, social work, and guidance services, and 25% received health services. During the summer term, 55% received transportation services. Of the total staff full-time equivalents during the regular term, 29% were teachers, 46% were teacher aides, and 8% were supporting services staff. During the summer term, 34% were teachers, 35% were teacher aides and 12% were support-services staff. Appendices comprising more than half the document offer 16 tables of participation data broken down by state and describe the data verification process. (TES)

April 1987

Acknowledgments

The completion of this report is the result of substantial effort on the part of several individuals and organizations. The State Migrant directors and program evaluators who were asked on several occasions to verify or add pieces of information deserve our thanks. We also appreciate the assistance of the Migrant Education Program staff in the U.S. Department of Education, with special thanks to William L. Stormer and Dustin W. Wilson. In addition, James English of the ED Office of Planning, Budget, and Evaluation, who served as our Project Officer, should be commended for his perseverance and flexibility in supporting the production of this report.

Our special thanks go to Mary Moore of DRC for her support and advice as well as to other DRC staff members for their assistance in verifying, revising, and reporting the Migrant database.

Preface

This report was prepared pursuant to Contract Number 300-85-103, U.S. Department of Education. The cost of the project was $28,119. The opinions and conclusions expressed in this report are those of the authors and do not necessarily represent the position or policies of the U.S. Department of Education.

Executive Summary

This report encompasses two volumes and summarizes the participation and achievement information provided by States on the ECIA Chapter 1 Migrant Program for the 1984-85 school year (FY85). FY85 marked the first year in which States were required to submit annual Migrant participation data using a standard format. For achievement, Statewide data summaries were requested, although no specific format was prescribed. Due to the newness of the reporting requirements, analyses of the Migrant data must be evaluated with caution.

This volume presents the participation information, while Volume 2 provides the achievement information. Limitations in the participation data are presented below, followed by a summary of major findings.

Data Limitations

The Migrant participation information presented in this volume is subject to a number of limitations. Some of the major ones are:

- Because FY85 was the first year in which Migrant participation data were collected according to a specified format, some States may not have had sufficient time to collect the participation information according to the specific categories required;
- Duplicated counts were likely to be reported by States with large, actively migrant populations; and
- Some States did not provide all of the requested information.

Results of Analyses

Analyses of the unduplicated total Migrant participation information indicate that:

- States with more than 10,000 participants were California, Texas, Florida, and Arizona.

- States with fewer than 100 participants were New Hampshire, West Virginia, Rhode Island, District of Columbia, and South Dakota.

Analyses of the characteristics of the Migrant participants illustrate the following:

- The proportions of male and female participants were roughly the same: 52 percent of Migrant participants were male, and 48 percent were female.

- Sixty-nine percent of the Migrant participants were Hispanic, 13 percent white/not Hispanic, 6 percent black/not Hispanic, 3 percent Asian or Pacific Islander, and 1 percent American Indian or Alaskan Native. (Nine percent were of unknown/other origin.)

- Ninety-six percent of Migrant participants were children of agricultural workers, and 4 percent were classified as children of fishers.

- Of the Migrant participants, 52 percent were classified as formerly migrant (or settled out), 30 percent as currently migrant across States (or interstate), and 18 percent as currently migrant within a State (or intrastate).

Analyses of the national Migrant participants by grade indicate that:

- Most Migrant participants (64 percent in the regular term and 73 percent in the summer term) were in grades K-6.

- Eighty-one percent of the Migrant students in the regular term (1984-85 school year) were in grades K-8 as compared to only 69 percent of the national student enrollment in the Fall 1983.

Analyses of the instructional and supporting services received by Migrant participants indicate that:

- Reading and mathematics instruction were received by the largest percentage of participants. In the regular term, 47

percent received reading and 33 percent received mathematics. In the summer term, 58 percent received reading and 61 percent received mathematics.

- A wide range of supporting services was provided to Migrant participants. In the regular term, 32 percent received attendance/social work/guidance services, while 25 percent received health services. In the summer term, 55 percent received transportation services and 43 percent received attendance/social work/guidance services.

Finally, analyses of staffing patterns illustrate that:

- Teachers, teacher aides, and staff providing supporting services were the dominant staff categories in terms of the number of staff full-time equivalents (FTEs) in both regular and summer terms. Of the total staff FTEs in the regular term, 29 percent were teachers, 46 percent were teacher aides, and 8 percent were staff providing supporting services. In the summer term, 34 percent were teachers, 35 percent were teacher aides, and 12 percent were staff providing supporting services.

Introduction

In this section we present an overview of the reporting requirements for the Migrant Program, followed by a description of the organization of this volume.

Overview

Chapter 1 of the Education Consolidation and Improvement Act (ECIA) of 1981 (Chapter 1) was enacted as part of the Omnibus Budget and Reconciliation Act of 1981 (P.L. 97-35). Chapter 1 superseded and incorporated portions of Title I of the Elementary and Secondary Education Act of 1965 as amended. The Migrant Education Program was authorized by reference within ECIA as amended.

The purpose of the Migrant Education Program is to establish and improve programs to meet the special educational needs of migratory children of migratory agricultural workers or fishers. Sections 555(d) and (e) of Chapter 1, respectively, specify State Educational Agencies' (SEAs) responsibilities for (1) maintaining records and information, and (2) conducting evaluations and collecting data. These sections state:

> (d) Records and Information: Each State educational agency shall keep such records and provide such information to the Secretary as may be required for fiscal audit and program evaluation (consistent with the responsibilities of the Secretary under this chapter).
>
> (e) Evaluation: Each State educational agency shall-
>
> > (1) conduct an evaluation of the programs assisted under this chapter at least every two years and shall make public the results of that evaluation; and
> >
> > (2) collect data on the race, age, and gender of children served by the programs assisted under this chapter and on the number of children served by grade-level under the programs assisted under this chapter.

The Department of Education (ED) published rules and regulations pertaining to these requirements in the Federal Register (7/1/86 Edition). In reference to the evaluation requirement, the Department wrote:

§204.23 Evaluation.

(a) SEA evaluation. (1) Each SEA shall-

(i) Conduct an evaluation of the Chapter 1 programs in the State at least once every two years and make public the results of that evaluation; and
(ii) Collect data annually on-

(A) The race, age, and gender of children served by the Chapter 1 programs in the State; and

(B) The number of children served by grade level under the Chapter 1 programs in the State.

(2) To meet the requirement in paragraph (a)(1)(i) of this section, the SEA may, for each Chapter 1 program, aggregate evaluation data collected under paragraph (b)(1)(i) of this section to obtain Statewide totals.

While these requirements obligated SEAs to report annual data to the federal government, ED did not specify the format nor provide guidelines for the information to be collected. As a result, States developed their own locally relevant criteria for collecting participation information.

In 1983, however, the General Counsel determined that all SEAs were required to submit standardized information on the Migrant Education Program to the Department of Education. To implement this decision, ED solicited input from SEAs on the most appropriate measures and assembled a standard format for reporting of the participation information. The resulting standard form (the State Performance Report) received final approval by the Office of Management and Budget (OMB) in the Spring of 1985. The 1984-85 school year was the first year of data collection using this form (OMB Form No. 1810-0519).

The timing of these events had several implications for data reported in this document. As a result of the timing of the form approval and the first data collection under the new format, SEAs may not have had sufficient time to collect the participation information according to the specific categories required. The short time period may also have increased the likelihood of inconsistent interpretations of the data collection form among States.

In succeeding years, SEAs should experience fewer of these problems. As a result their data collection systems can be expected to be more compatible with the reporting requirements of the State Performance Reports.

Organization

The next section discusses limitations of the data that should be kept in mind when examining the results of the analyses presented in subsequent sections of this report. The Migrant participation information follows the section describing data limitations. Participation information includes the following topics:

- Total participation;
- Participation by demographic characteristics: gender, ethnicity, Migrant status, and year of birth;
- Participation by grade level and by school term;
- Participation by instructional service and by school term;
- Participation by supporting service and by school term; and
- Staffing patterns by school term.

Within each of these topics, an analysis of the data at the national level is presented. With the exception of Hawaii (which does not participate in the Migrant Education Program), all States, the District of Columbia, and Puerto Rico are analyzed. When appropriate, comparisons with a previously conducted study of the Migrant Program[1] are discussed. State level information on participation data is given in Appendix A.

In addition, a description of the verification process for the FY85 information is given in Appendix B. This process included edit checks for internal consistency and comparability with other sources of information such as the Migrant Student

Data Limitations

The Migrant participation information presented in this volume is subject to a number of limitations. They include:

- FY85 marked the first year in which ED collected Migrant participation data according to a specified format; therefore, some States may not have had sufficient time to collect the participation information according to the specific categories required. Also, there may have been inconsistent interpretations among States of some definitions of terms used in the data collection form. (Some of these misunderstandings, however, were resolved through the verification process.)

- Duplicated participation counts were likely to be reported by States with large, actively Migrant populations.

- Some States did not provide all of the requested information. In particular,

  - Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not reported.

  - Washington reported participation data by gender, ethnicity, Migrant status, and year of birth separately for the regular and summer terms. For reporting purposes, duplication will result whenever both terms are combined.

  - In some States, not all of the Migrant participants were categorized by year of birth or by ethnicity. Consequently, the numbers of Migrant students in these States are underrepresented in the specific year-of-birth and ethnicity categories.

- Illinois did not provide year-of-birth breakdowns.

- Texas did not provide breakdowns by the six Migrant status categories, and Washington provided only two Migrant status categories (formerly and currently).

- Texas did not report summer participation by grade, although they did report counts of students receiving supporting services in the summer term.

- Some States included duplicated counts within an instructional or supporting service area; that is, Migrant students were counted more than once within a particular instructional or supporting service area. In addition, some States only reported one instructional or supporting service area per participant, regardless of the number of services the participant actually received.

- Some States reported students under a "general tutorial" area and not within specific instructional subject categories.

- Staff refers to personnel funded through the Migrant Program, not necessarily personnel providing services to Migrant students. Migrant participants may receive additional services from staff funded by other Chapter 1, State Compensatory Education, or Special Education programs. Counts of all staff providing services to Migrant students are not available from the present reporting system.

- States may have interpreted the definition of staff FTE differently. For example, some States may have considered a full-time employee one who works 2,080 hours during the year, while others may have reported head counts. In addition, some may have used different bases of FTE for different types of personnel. For example, Washington defined an FTE to be 2,080 hours for classified staff and 1,080 hours for certificated personnel.

Total Participation

States are requested to submit the unduplicated number of Migrant participants during the regular and summer terms combined. The number of participants in FY85 ranged from a low of 59 in South Dakota to a high of 121,605 in California. States with more than 10,000 Migrant participants were California, Texas, Florida, and Arizona; States with fewer than 100 participants were New Hampshire, West Virginia, Rhode Island, the District of Columbia, and South Dakota.

The median number of Migrant participants was 2,583, and the average was 6,906. The large difference between the median and the average of the number of participants is attributable to the extremely high number of participants in California. Table 1 shows the counts and percentages of Migrant participants by State.

Participation by Demographic Characteristics

This section presents the national composition of Migrant students for each of the following demographic characteristics--gender, ethnicity, Migrant status, and year of birth.

Gender

The proportions of males and females were roughly the same. Nationally, 52 percent of Migrant participants were male, and 48 percent were female. Table 2 gives the numbers and the percentages of participants by gender. (Table A-1 in Appendix A presents this information by State.)

Ethnicity

Most Migrant participants were of Hispanic origin. Nationally, 69 percent of participants were Hispanic, 13 percent white/not Hispanic, 6 percent black/not Hispanic, 3 percent Asian or Pacific Islander, and 1 percent American Indian or Alaskan Native. The percentage of participants in the unknown/other ethnic group is fairly high (9 percent); this is due largely to the large number of participants reported by California as having unknown ethnicity. Table 3 presents the numbers and the percentages of participants by ethnic group. (See Table A-2 in Appendix A for a State-by-State listing of this information.)

Most of the 17 States in which the Hispanic population was not predominant were in the Southeast or Northeast. These States tended to have a large proportion of white or black participants. The Migrant participants of Alabama, Alaska, Arkansas, Georgia, Kentucky, Louisiana, Maine, Missouri, New Hampshire, New York, Tennessee, Vermont, and West Virginia were predominantly white, whereas those in D.C., Delaware, Mississippi, and North Carolina were predominantly black.

A comparison of the 1977 data reported by the Research Triangle Institute (see footnote 1) and the FY85 data on Migrant participation by ethnic group was also performed. Regardless of the participants reported with unknown/other ethnicity, both the RTI and the FY85 data show that a majority of Migrant participants were Hispanic, and that whites represented the second largest and blacks the third largest population group. (See Table 4.)

Migrant Status

The six Migrant status categories are:

- Status I: Agricultural - interstate,
- Status II: Agricultural - intrastate,
- Status III: Agricultural - settled out,
- Status IV: Fishers - interstate,
- Status V: Fishers - intrastate, and
- Status VI: Fishers - settled out.

Nationally, 96 percent of the Migrant students were children of agricultural workers, and 4 percent were classified as children of fishers. Of the migrant participants, 52 percent were classified as settled out (formerly migrant), 30 percent as interstate (currently migrant across States), and 18 percent as intrastate (currently migrant within a State). Table 5 shows the percentages of participants by Migrant status. (In Table A-3 in Appendix A, this information is provided by State.)

To take into account the data reported by Washington, the Migrant students were also classified into two categories--currently and formerly migrant. In this analysis, currently Migrant participants also constituted 48 percent and formerly Migrant participants 52 percent of the national total. Table 6 displays the percentages of Migrant students by this classification. (This information is provided by State in Table A-4.)

Year of Birth

In this analysis, birth years are grouped as follows: 1964-1969, 1970-1972, 1973-1979, 1980-1985, and unknown. Fifty-six percent of the national total number of Migrant participants were born between 1973 and 1979. Table 7 presents the numbers and the percentages of participants by year of birth. (In Appendix A, Table A-5 displays this information by year-of-birth grouping and by State, while Table A-6 provides the State-by-State information for each year-of-birth category.)

Participation by Grade Level

Each State was asked to report Migrant participation by grade level (unduplicated) separately for the regular and summer terms. The grade levels include Pre-Kindergarten, Kindergarten (K) through twelfth grade, and ungraded. A few States did not offer regular programs while others did not offer summer programs; therefore, these States were not included in the national participation by grade figures. In FY85, Montana, Nebraska, Rhode Island, and Wyoming did not offer regular programs, whereas Arkansas, the District of Columbia, Mississippi, Nevada, Oklahoma, Puerto Rico, and South Dakota did not offer summer programs. Table 8 lists by State those offering regular term and/or summer term programs in FY85.

The grade groupings for this analysis are Pre-Kindergarten, Kindergarten through sixth grade, seventh through ninth grade, tenth through twelfth grade, and ungraded. Most Migrant participants were in grades K-6 for both regular (64 percent) and summer (73 percent) terms. The category with the second highest percentage of Migrant participants is grades 7-9, which consisted of 21 percent of the participants in the regular term and 12 percent in the summer term. Table 9 presents the numbers and percentages of participants by grade grouping for the regular and summer terms. (In Appendix A, Tables A-7 and A-9 provide this information by grade groupings by State for the regular and summer terms, respectively, while Tables A-8 and A-10 display the State-by-State information for each grade for the regular and summer terms, respectively.)

A comparison of the grade distribution of Migrant participants in grades K-12 in the regular term in FY85 (the 1984-85 school year) and the overall student enrollment in public elementary and secondary schools in grades K-12 in Fall 1983 indicates a noticeable difference between the two distributions. Eighty-one percent of the Migrant students in the regular term in FY85 were in grades K through 8 as compared to only 69 percent of the national enrollment in Fall 1983. (See Table 10.) A high percentage of Migrant students in grades K through 8 is not surprising since the RTI study also indicated that 81 percent of the Migrant participants in 1977 were in grades K through 8.

A comparison of the number of Migrant participants in the regular term in grades K-12 in FY85 and the enrollment in public elementary and secondary schools in grades K-12 in Fall 1983 was also performed. Although the years are not quite the same, we can see that from this information, nationally, slightly less than 1 percent of public school students would have been participants in the Migrant program. In nine States,

this percentage was between 1 and 4 percent. Table 11 provides a State-by-State listing of this information.

Participation by Instructional Service

The instructional services provide supplemental instruction such as pull-out or in-class tutorial and special short-term programs. The instructional service areas for which participation data were collected are English for those with limited English background, reading, other language arts, mathematics, vocational/career, and other instructional areas such as natural sciences, social studies, general tutorial programs, etc. Each State was asked to provide, separately for the regular and summer terms, the unduplicated count of students participating in each of the above areas. However, in the other language arts and other instructional categories, duplication was very likely to occur because a number of different services may be aggregated. Unduplicated reporting across all the instructional categories was not required, that is, if a student received services in both reading and mathematics, this student should have been recorded in each of these two categories.

Examining the percentages of the total (unduplicated) number of Migrant participants who received each of the instructional services for the regular and summer terms separately reveals that reading and mathematics instruction were received by the largest percentage of participants. In the regular term, 47 percent of the participants received reading and 33 percent received mathematics. In the summer term, 58 percent received reading and 61 percent received mathematics. (See Table 12.)

These percentages were also recalculated to eliminate those States that appeared to report duplication within a particular instructional area. (See Tables A-11 and A-12 of Appendix A for both sets of figures for the regular and summer terms, respectively.) The recalculations show very small decreases in the percentages for the reading and the other instructional category in the regular term, and a larger decrease for the other instructional category in the summer term.

Participation by Supporting Service

Supporting services provide administrative, technical (i.e., guidance and health services), and logistical support to facilitate instructional services. The areas of supporting service for which participation data were collected are attendance/social work/guidance, health, dental, nutrition, pupil transportation, and other supporting services. Each State was asked to provide, separately for the regular and summer terms, the unduplicated count of students receiving services in each of the above categories. However, in the other supporting category, duplication was very likely to occur because a number of different services may be aggregated. Unduplicated reporting across all the supporting categories was not required, that is, if a student received services in both dental and health, this student should have been recorded in each of these two categories.

Examining the percentages of the total (unduplicated) number of Migrant participants who received each of the supporting services for the regular and summer terms separately reveals that a wide range of supporting services was available to Migrant participants. In the regular term, 32 percent of the participants received attendance/social work/guidance services, while 25 percent received health services. In the summer term, 55 percent received transportation services, 43 percent received attendance/social work/guidance services, and over one-third received health and nutrition services. (See Table 13.)

These percentages were also recalculated to eliminate those States that appeared to report duplication within a particular supporting area. (See Tables A-13 and A-14 of Appendix A for both sets of figures for the regular and summer terms, respectively.) The recalculations show minor decreases in the percentages for the attendance/social work/guidance, nutrition, pupil transportation, and other supporting categories for the regular term, and for the attendance/social work/guidance and other supporting categories for the summer term.

Staffing Patterns

Each State was required to report staff information according to the job classification for which they were employed, in the unit of full-time equivalents (FTE). Staff information was not reported according to area of certification or job function. The staff classifications include administrative staff, teacher, teacher aide, curriculum specialist, staff providing supporting services, recruiter, MSRTS data entry specialist, and others whose job classifications are not specified above.

An FTE is defined as the amount of time actually spent on an activity divided by the amount of time normally considered as full-time for that activity. For example, a person working full-time in both the regular and summer terms is 1.0 FTE for the regular term and 1.0 FTE for the summer term.

Teachers, teacher aides, and staff providing supporting services were the dominant three staff categories in terms of the number of staff FTEs for both the regular and the summer terms. Of the total staff FTEs in the regular term, 29 percent were teachers, 46 percent teacher aides, and 8 percent staff providing supporting services; in the summer term, 34 percent were teachers, 35 percent teacher aides, and 12 percent staff providing supporting services. Each of the remaining categories represented only about 5 percent or less of the total staff FTEs for either term. Table 14 presents the numbers and the percentages of staff FTEs by staff classification separately for the regular and summer terms. (See Table A-15 in Appendix A for a listing of this information by State.)

Examining the ratios of staff FTEs per 1,000 Migrant students and of Migrant students per staff FTE reveals that in the regular term, 44.55 full-time employees of all classifications served every 1,000 Migrant students, or, equivalently, 22 Migrant students were served by one full-time employee. In the summer term, 94.85 full-time employees served every 1,000 Migrant students, or, equivalently, 11 Migrant students were served by one full-time employee. (See Table 15.)

In the regular term, the lowest ratios of Migrant students per staff FTE occurred within those staff categories directly involved in providing services to students--78 for teachers, 49 for teacher aides, and 267 for staff providing supporting services. Similarly, these three staff categories provided the lowest ratios in the summer term--31 for teachers, 30 for teacher aides, and 89 for staff providing supporting services. (See Table A-16 in Appendix A for a listing of this information by State.)

---

(1) IDAHO'S REPORTED NUMBER OF PARTICIPANTS REFLECTS THE UNDUPLICATED COUNT OF STUDENTS RECEIVING INSTRUCTIONAL SERVICES; UNDUPLICATED COUNTS OF STUDENTS RECEIVING ONLY SUPPORTING SERVICES WERE NOT AVAILABLE.

(2) WASHINGTON'S COUNTS IN REGULAR AND SUMMER TERMS ARE COMBINED, THUS THE FIGURE 9,002 REPRESENTS A DUPLICATED COUNT.

(3) NATIONAL PARTICIPATION TOTAL SHOULD BE INTERPRETED WITH CAUTION BECAUSE OF THE EXCEPTIONS NOTED ABOVE.

TABLE 2

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY GENDER
FY 1985

Gender	Number of Participants	Percentage of Participants
Male	182,736	51.89
Female	169,458	48.11
Total	352,194	100.00

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Washington reported data for the regular and summer terms separately. These data were combined and therefore, represent a duplicated count.

(3) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 3

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY ETHNIC GROUP
FY 1985

Ethnic Group	Number of Participants	Percentage of Participants
American Indian or Alaskan Native	3,236	0.92
Asian or Pacific Islander	10,915	3.10
Black, Not Hispanic	20,702	5.88
Hispanic	241,575	68.59
White, Not Hispanic	44,281	12.57
Unknown/Other	31,485	8.94
Total	352,194	100.00

(1) California reported the largest number (28,082) of students as ethnic group unknown. Consequently, the percentage of participants of unknown/other ethnic group (8.94) is fairly high.

(2) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(3) Washington reported data for the regular and summer terms separately. These data were combined and, therefore, represent a duplicated count.

(4) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 4

COMPARISON OF PARTICIPATION BY ETHNIC GROUP
RTI DATA VERSUS FY 1985 DATA

	RTI 1977 Data*		FY 1985 Data	
Ethnic Group	Number	Percent	Number	Percent
American Indian	1,000	0.27	3,236	0.92
Asian	1,500	0.40	10,915	3.10
Black/Non-Hispanic	49,800	13.40	20,702	5.88
Hispanic	256,600	69.03	241,575	68.59
White/Non-Hispanic	62,800	16.90	44,281	12.57
Unknown/Other			31,485	8.94
Total	371,700	100.00	352,194	100.00

* Cameron, B. F. Comprehensive Summary: A Study of the ESEA Title I Migrant Education Program. Research Triangle Park, N.C.: Research Triangle Institute, March 1981.

TABLE 5

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY MIGRANT STATUS
FY 1985

Participants	Interstate	Intrastate	Settled Out	Total
Agricultural				
Number	81,732	47,379	140,339	269,450
Percentage	29.14	16.89	50.14	96.17
Fishers				
Number	1,382	3,286	6,321	10,989
Percentage	0.49	1.17	2.25	3.91

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Texas did not provide breakdowns by Migrant status.

(3) Washington provided only two categories, currently and formerly; these counts were not included in this table.

(4) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 6

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY MIGRANT STATUS
FY 1985

	Migrant Status		
Participation	Currently	Formerly	Total
Number	145,675	155,966	301,641
Percentage	48.29	51.71	100.00

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Texas did not provide breakdowns by Migrant status.

(3) Washington reported data for the regular and summer terms separately. These counts were combined and, therefore, represent a duplicated count.

(4) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 7

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY YEAR OF BIRTH
FY 1985

	Year of Birth					
Participation	1980-1985	1973-1979	1970-1972	1964-1969	Unknown	Total
Number	21,849	195,878	72,267	54,024	4,987	349,005
Percentage	6.26	56.12	20.71	15.48	1.43	100.00

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Illinois did not provide breakdowns by year of birth.

(3) Washington reported data for the regular and summer terms separately. These counts were combined and, therefore, represent a duplicated count.

(4) Because of the data exceptions noted, results should be interpreted with caution.

a/ Hawaii does not participate in the Migrant Education Program.

b/ During the Regular Term, Rhode Island provided indirect, consultative services and field trips; direct instructional services and other supporting services were not provided.

TABLE 9

NUMBER OF PARTICIPANTS IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY GRADE
REGULAR AND SUMMER TERMS
FY 1985

Participation	Grade Level					
	Pre-K	K-6	7-9	10-12	Ungraded	Total
Regular						
Number	13,143	196,175	65,291	35,493	4,227	314,329
Percentage	4.18	64.41	20.77	11.29	1.34	100.00
Summer						
Number	7,815	73,344	11,811	5,652	2,273	100,895
Percentage	7.75	72.69	11.71	5.60	2.25	100.00

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Montana, Nebraska, Rhode Island, and Wyoming did not offer regular programs.

(3) Arkansas, D.C., Mississippi, Nevada, Oklahoma, Puerto Rico, and South Dakota did not offer summer programs.

(4) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 10

COMPARISON OF THE GRADE DISTRIBUTION OF MIGRANT PARTICIPATION AND NATIONAL ENROLLMENT

	Migrant Participants In Regular Term FY 1985		Public Elementary and Secondary School Enrollment Fall 1983	
Grade	Count	Percent	Count	Percent
K-8	241,693	81.2	27,555,894	68.7
9-12	55,266	18.8	12,537,249	31.3
Total	296,959	100.0	40,093,143	100.0

(1) Idaho's reported number of participants reflects the unduplicated count of students receiving instructional services; counts of students receiving only supporting services were not available.

(2) Because of the data exceptions noted, results should be interpreted with caution.

(3) Migrant participant numbers, representing States that offered regular term programs, include only those children reported in grades K-12 and do not include children reported in the categories Pre-K or ungraded.

(4) Public Elementary and Secondary School Enrollment was obtained from Digest of Education Statistics 1985-86. These enrollment numbers are for the 50 States, The District of Columbia, and Puerto Rico.

NATIONAL (6)	296,959	40,093,143	0.8%

(1) THE MIGRANT PARTICIPATION NUMBERS INCLUDE ONLY THOSE CHILDREN REPORTED IN GRADES K-12 AND DO NOT INCLUDE CHILDREN REPORTED IN THE CATEGORIES PRE-K OR UNGRADED. THESE MIGRANT PARTICIPATION NUMBERS ARE ONLY FOR THOSE STATES THAT OFFER REGULAR TERM PROGRAMS.
(2) ENROLLMENT IN PUBLIC ELEMENTARY AND SECONDARY SCHOOLS IN GRADES K-12 WAS OBTAINED FROM DIGEST OF EDUCATION STATISTICS 1985-86. THESE NUMBERS ARE FOR THE 50 STATES, THE DISTRICT OF COLUMBIA, AND PUERTO RICO.
(3) PERCENTS LESS THAN 0.1 ARE SHOWN AS 0.0 DUE TO ROUNDING.
(4) IDAHO'S REPORTED NUMBER OF PARTICIPANTS REFLECTS THE UNDUPLICATED COUNT OF STUDENTS RECEIVING INSTRUCTIONAL SERVICES; UNDUPLICATED COUNTS OF STUDENTS RECEIVING ONLY SUPPORTING SERVICES WERE NOT AVAILABLE.
(5) STATE DID NOT OFFER MIGRANT PROGRAM FOR THE REGULAR TERM.
(6) NATIONAL MIGRANT PARTICIPATION TOTALS SHOULD BE INTERPRETED WITH CAUTION BECAUSE OF THE EXCEPTIONS NOTED ABOVE.

TABLE 12

NUMBER OF PARTICIPANTS IN CHAPTER 1
MIGRANT EDUCATION PROGRAM BY INSTRUCTIONAL SERVICES
REGULAR AND SUMMER TERMS
FY 1985

Term	English to Limited English Background	Reading	Other Language Arts	Mathematics	Vocational	Other	Unduplicated Number of Participants
Regular Term							
Count	53,346	149,042	70,346	103,436	24,012	34,726	314,329
Percent	16.97	47.42	22.38	32.92	7.64	11.05	
Summer Term							
Count	34,069	58,143	50,681	61,625	23,910	35,661	100,895
Percent	33.77	57.63	50.23	61.08	23.70	35.34	

(1) Some States included duplicated counts within an instructional service area; in addition, some only reported one instruction area per student, regardless of the number of instructional areas actually provided.

(2) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 13

NUMBER OF PARTICIPANTS IN CHAPTER 1
MIGRANT EDUCATION PROGRAM BY SUPPORT SERVICES
REGULAR AND SUMMER TERMS
FY 1985

Term	Attendance, Social Work, Guidance	Health	Dental	Nutrition	Transportation	Pupil Other	Unduplicated Number of Participants
Regular Term							
Count	99,608	78,403	5,705	22,756	38,841	40,319	314,329
Percent	31.69	24.94	18.15	7.24	12.36	12.83	
Summer Term							
Count	43,524	35,305	27,218	38,088	55,228	13,104	100,895
Percent	43.14	34.99	26.98	37.75	54.74	12.99	

(1) Texas reported counts of students receiving supporting services during the summer term; however, summer participation counts by grade were not provided. Supporting services counts were included in these data.

(2) Some States included duplicated counts within a supporting service area, especially in the attendance, social work, guidance category.

(3) Because of the data exceptions noted, results should be interpreted with caution.

TABLE 14

NUMBER OF STAFF FULL-TIME EQUIVALENTS (STAFF FTEs) IN THE CHAPTER 1
MIGRANT EDUCATION PROGRAM BY TYPE OF STAFF
REGULAR AND SUMMER TERMS
FY 1985

Term	Admin. Staff	Teacher	Teacher Aide	Curric. Special.	Support Services	Recruiter	Data Entry	Other	Total
Regular Term									
# of Staff FTEs	454.4	4,041.7	6,433.4	493.4	1,179.4	578.4	388.3	435.2	14,004.2
% Staff FTEs	3.24	28.86	45.94	3.52	8.42	4.13	2.77	3.11	100.0
Summer Term									
# of Staff FTEs	396.0	3,294.7	3,341.6	213.2	1,135.8	436.6	269.2	482.6	9,569.7
% Staff FTEs	4.14	34.43	34.92	2.23	11.87	4.56	2.81	5.04	100.00

(1) Staff refers to personnel funded through the Migrant program, not personnel providing services to Migrant students.

(2) Definitions of Staff FTEs differ among the States; therefore, these counts should be interpreted with caution.

TABLE 15

---

(1) STAFF REFERS TO PERSONNEL FUNDED THROUGH THE MIGRANT PROGRAM, NOT PERSONNEL PROVIDING SERVICES TO MIGRANT STUDENTS. IN ADDITION, DEFINITIONS OF STAFF FTEs DIFFER AMONG THE STATES; THEREFORE, THESE COUNTS SHOULD BE INTERPRETED WITH CAUTION.
(2) IDAHO'S REPORTED NUMBER OF PARTICIPANTS REFLECTS THE UNDUPLICATED COUNT OF STUDENTS RECEIVING INSTRUCTIONAL SERVICES; UNDUPLICATED COUNTS OF STUDENTS RECEIVING ONLY SUPPORTING SERVICES WERE NOT AVAILABLE.
(3) STATE DID NOT OFFER REGULAR PROGRAM.
(4) NATIONAL PARTICIPATION TOTALS AND STAFF/STUDENTS RATIOS SHOULD BE INTERPRETED WITH CAUTION BECAUSE OF THE EXCEPTIONS NOTED ABOVE.

---

(1) STAFF REFERS TO PERSONNEL FUNDED THROUGH THE MIGRANT PROGRAM, NOT PERSONNEL PROVIDING SERVICES TO MIGRANT STUDENTS. IN ADDITION, DEFINITIONS OF STAFF FTEs DIFFER AMONG THE STATES; THEREFORE, THESE COUNTS SHOULD BE INTERPRETED WITH CAUTION.
(2) STATE DID NOT OFFER SUMMER PROGRAM.
(3) IDAHO'S REPORTED NUMBER OF PARTICIPANTS REFLECTS THE UNDUPLICATED COUNT OF STUDENTS RECEIVING INSTRUCTIONAL SERVICES; UNDUPLICATED COUNTS OF STUDENTS RECEIVING ONLY SUPPORTING SERVICES WERE NOT AVAILABLE.
(4) NATIONAL PARTICIPATION TOTALS AND STAFF/STUDENTS RATIOS SHOULD BE INTERPRETED WITH CAUTION BECAUSE OF THE EXCEPTIONS NOTED ABOVE.

APPENDIX B

DATA VERIFICATION PROCESS

Data Verification Process

Upon receiving the participation data as reported to OPBE, a number of edit checks were performed, and State Migrant Education Offices were later contacted to obtain clarification on certain information on the performance reports. The edit checks included checking for internal consistency and comparability with other sources of data.

Edit Checks

1. Checks for missing and ambiguous data:

   - to ensure that all required data were reported; and
   - to clarify ambiguous data and confusing reporting practices; for example, counts which appear to be entered on incorrect lines, dates which do not correspond with the FY85 reporting period, etc.

2. Internal consistency checks:

   - to determine that totals by gender, ethnicity, year of birth, and Migrant status are equal;
   - to ensure that participation totals equal the sum of their parts;
   - to ensure that counts reported for each of the instructional and supporting service areas are lower than the reported participation counts;
   - to see if the grade and year-of-birth distributions do not deviate greatly nor are identical by examining the matched relationship between these two distributions for that part of the population where this match is possible; and
   - to identify States with outlying values of (i) the ratio of total participants to the total staff FTEs, and (ii) the ratio of total participants to the number of participants in each of the instructional and supporting service areas. That is, the

ranges of these ratios are examined to determine States with ratios falling at the extremes of the distribution (10th percentile or less and 90th percentile or more), to see if these values are in need of verification.

3. Longitudinal checks with FY82/FY83 Migrant data:

   - to determine if the relationship between the number of participants and the number of staff FTEs is compatible with that of FY82/FY83 data;
   - to determine if the relationship between the number of participants and the number of participants in each instructional service area is compatible with that of FY82/FY83 data;
   - to determine if the relationship between the number of participants and the number of participants in each supporting service area is compatible with that of FY82/FY83 data; and
   - to compare the grade distribution with that reported for FY82/FY83.

Because of the limited nature of FY82/FY83 data, the longitudinal checks were performed only when possible.

4. Checks with the MSRTS data:

Initially, comparisons of the FY85 data with the MSRTS data were considered. However, because the MSRTS data, obtained from the ED Migrant Education Office, contained only unduplicated participation counts at a given point in time or duplicated counts for the 1985 calendar year, but not unduplicated participation counts for FY85, this comparison was not performed.

States' Response

All States were sent a list of questions on the participation data and/or a printout of their data in the Migrant database. Many States provided helpful explanations which called attention to a number of limitations in the participation data, and these States' responses were incorporated into the discussion of the data limitations in this report. With regard to the longitudinal checks, most

States responded that FY82/FY83 data contained duplications, causing FY85 and FY82/FY83 data to be non-comparable.
